**The Wimsey Hand Clinic - Tel: 07599 681 423**

Rivers Hospital, Sawbridgeworth  
The Holly Hospital, Buckhurst Hill  
Spire Bushey, Watford

## **Medico-Legal Experience**

I have been producing medicolegal reports for 13 years.

I am fully up-to date with the Woolf reforms and the subsequent changes this has made to report compiling. My reports are fully compliant with the Civil Procedures Rules, 1998 - Part 35, and subsequent Practise directions 35 (October 2009).

My work includes Personal Injury and Medical Negligence claims.

My expertise is in General Orthopaedic conditions with a special interest in injuries of the upper limb and hand.

The average time to be seen is 2 to 4 weeks. The turn-around time in returning a completed report, if all medical records have been made available, is less than 2 weeks. Over the last 13 years I have compiled in excess of 1100 medicolegal reports. My workload is split roughly 80% claimant, 15% defendant, 5% joint instruction.

I provide clear and defensible opinions on causation, prognosis and long-term disability. I have a strong record of repeat instructions, and have established long-term professional relationships with several leading law firms.

## **Courses / Qualifications / Conferences**
