Harley Street Specialist Hospital, London
Rivers Hospital, Sawbridgeworth
The Holly Hospital, Buckhurst Hill
Spire Bushey, Watford

Medico-Legal Experience

I have been producing medicolegal reports for 13 years.

I am fully up-to date with the Woolf reforms and the subsequent changes this has made to report compiling. My reports are fully compliant with the Civil Procedures Rules, 1998 - Part 35, and subsequent Practise directions 35 (October 2009).

My work is predominantly Personal Injury claims, but I also take on Medical Negligence Claims. My expertise is in General Orthopaedic conditions. This includes a special interest in injuries of the upper limb and hand.

The average time to be seen is 1-3 weeks. The turn-around time in returning a completed report, if all medical records have been made available, is less than 2 weeks. Over the last 12 years I have compiled in excess of 1100 medicolegal reports. My workload is split roughly 80% claimant, 15% defendant, 5% joint instruction.

Courses / Qualifications / Conferences

2022 Clinical Negligence Essentials Part 2, Bond Solon
2022 Clinical Negligence Essentials Part 1, Bond Solon
2015 Premex Updates Conference
2013 CertMR Certificate of Medical Reporting Parts 1 & 2, Bond Solon
